

Meeting Minutes Transmittal

**T Plant Complex, Low Level Burial Grounds,
Central Waste Complex, Waste Receiving and Processing
Project Managers Meeting
825 Jadwin / Room 554
Richland, Washington**

May 23, 2013

The undersigned indicate by their signatures that these meeting minutes reflect the actual occurrences of the above dated Project Managers Meeting. Signatures denote concurrence with the content only and are not intended to imply agreement to any commitments.

Project Manager Representative, Ecology

Date: 6-27-2013

Project Manager Representative, RL

Date: 26 June 2013

T PLANT/LLBG/CWC/WRAP
PROJECT MANAGERS MEETING MINUTES
Project Managers Meeting
825 Jadwin/Room 554/700 Area
Richland, Washington

March 28, 2013

- I. The March 28, 2013 Project Managers Meeting (PMM) minutes were approved. The April 2013 PMM was canceled.
- II. Operational Status
 - A. Lee Tuott (CHPRC) provided the operational status. The current plan for Box 231ZDR-11 is to remove the lifting eyes and place a bag over the box. The bag is similar to the bags being used to cover other boxes in CWC, and consists of a heavier material with ties on the end, making it easier to use. Deborah Singleton (Ecology) asked about the time frame for getting the box moved. Mike Collins (RL) stated that there is no solid schedule for moving the box, and it is resource dependent, with five or six activities that have a higher priority. Mr. Collins cited the LERF cleanup, the reactor compartment trench and the WESF roof repair that have a higher priority. Mr. Tuott noted that Box 231ZDR-11 still has the cover over the top. Mr. Tuott stated that RL/CHPRC are coordinating with the Department of Health (DOH) on getting the necessary air permits that are mostly associated with the potential of disturbing the soil. Mr. Collins stated that at WRAP, the last piece of waste, which is a drum lifter battery, was scheduled to be moved out this week. Once it is removed, the building will be empty. Mr. Tuott noted that the last page of today's handout lists the various size containers in the three facilities, and the table was current as of Monday (5/20/13).
- III. Status of Previous Agreements and Commitments
 - A. There were no previous agreements or commitments to status.
- IV. New Agreements and Commitments
 - A. There were no new agreements or commitments for discussion.
- V. Near Term Schedules and Ongoing Activities
 - A. Hanford Facility RCRA Permit Rev. 9 Update
Mr. Collins stated that there were no items to discuss regarding Rev. 9. Ms. Singleton concurred with Mr. Collins.
- VI. Approved Changes signed off in Accordance with TPA Section 12.2
 - A. There were no approved changes signed.
- VII. General Discussion
 - A. Mr. Collins reported that notification was received from John Price (Ecology) that the T Plant inspection, which occurred about 2 ½ years ago, is being closed out. Ecology has indicated that it is relying on the NEIC inspection that was performed and will defer to EPA's conclusions. Mr. Collins stated that since the parties are relying on the NEIC inspection, a request for the NEIC inspection report will be sent to Mr. Price. Allan Cawrse (CHPRC) asked if there was a separate Ecology inspection report on T Plant that was completed and sent to EPA. Ms. Singleton responded that there was not an inspection report, and that Ecology was intending to close the inspection. Ms. Singleton stated that she will check Ecology's database to see if any documentation has been submitted on the T Plant inspection closeout.

VIII. Actions

Unit	Description of Action	Status	Date
T Plant	RL to submit proposal to Ecology for interim status monitoring compliance for 221-T tank system.	Action established	4/26/12
		RL submitted a proposal to Ecology. Ecology is reviewing the proposal.	6/28/12
		No resolution to proposal. A status will be provided at the next PMM	7/26/12
		RL continues to review internally. No new status	12/6/12
		No new status provided	3/28/13
		No new status provided	5/23/13

IX. Documents for Submittal to the Administrative Record.

A. The March 28, 2013 PMM minutes were identified for submittal to the AR.

X. Next Project Managers Meeting

A. The next PMM is scheduled for June 27, 2013.

PROJECT MANAGERS MEETING OPERATIONS REPORT FOR SWOC

May 2013

Waste Retrieval Performance

CWC/LLBG Activities

Activity Description	Status
CWC	<ul style="list-style-type: none">• Performing waste storage activities.• Coordinating with DOE on management of Box 231ZDR-11. The current plan is to remove the lifting eyes and place a bag over the box (similar to the new bags being used to cover other boxes in the CWC west outdoor storage area).
LLBG	<ul style="list-style-type: none">• Continuing layup/housekeeping activities for 4B, 4C, 3A, 12B burial grounds.• Trench 94 - Soil testing has been completed to support the future receipt of reactor compartments that are larger/heavier.

WRAP/T Plant Activities

Activity Description	Status
WRAP	<ul style="list-style-type: none">• Continuing surveillance and maintenance activities.• Cleanup work in 2404-WB is complete. The floor maintenance activities (e.g., painting, chip repair, resurfacing spill area) at 2404-WB will be scheduled when resources are available.
T Plant	<ul style="list-style-type: none">• Continuing surveillance and maintenance activities.

Facility RCRA-Regulated Container Inventory (# of containers) and Volume (m³)*

Facility	Drum/Small Container ¹	Medium Container/Box ²	Large Container ³	Total Volume
CWC (Mar)	5468 (1319 m ³)	423 (721 m ³)	393 (6873 m ³)	8,913 m ³
CWC (May)	5468 (1318 m ³)	426 (727 m ³)	392 (6919 m ³)	8,964 m ³
T Plant (Mar)	5 (1m ³)	3 (4 m ³)	2 (44m ³)	49 m ³
T Plant (May)	5 (1m ³)	3 (4 m ³)	2 (44m ³)	49 m ³
WRAP (Mar)	0 (0 m ³)	1 (2 m ³)	0 (0 m ³)	2 m ³
WRAP (May)	2 (1 m ³)	2 (2 m ³)	1 (6 m ³)	9 m ³

Footnotes:

- 1 Volume of 0.485 m³ (110 gallons or 17.1 ft³) or less
- 2 Greater than 0.485 m³, less than 1.812 m³ (64ft³)
(Standard waste box)
- 3 Greater than 1.812 m³
